PROFILE

As a passionate full stack web developer, I have worked on several personal projects. Endowed with natural leadership, I am recognized for my creativity and my agility of mind, and above all, my passion and teamwork.

PROJECTS

TU CASA TN

Rental Web App for Tunisian Market

- Utilized a combination of front-end technologies (React), and back-end technologies (Node.js, Express) to create a seamless user experience..
- Implemented a RESTful API architecture to seamlessly connect the front-end and back-end, enhancing user experience and data retrieval efficiency.
- MongoDB integration for seamless data management.
- Ensured a modern and intuitive user interface using Material-UI, delivering an exceptional user experience.
- Hosted the project at tuCasatn.netlify.app

BACK2GAMING

Latest Free Game Tracker

- Designed and developed the "Back2Gaming" website, focusing on providing users with up-to-date information on free games offered by Epic Games.
- Utilized a third-party Epic Games API to fetch and display the latest free game offerings. , Hosted project at Back2Gaming.netlify.app

PORTFOLIO WEBSITE 3.0

Ongoing Development

- Utilizing React with Redux for efficient state management and incorporating React TS Particles for engaging visual effects.
- Planning to implement an Express.js back-end to handle future features and interactions.
- Hosted the project at KhaledHm.tn
